## VORHER

Das verwendete "leere" Wasser ist vor der Energetisierung mit AURICUM SENSITIVE sehr selten in der Lage, auf gefrorenen Tropfen kristalline Formen hervorzubringen. (nebenstehendes Foto)

## NACHHER

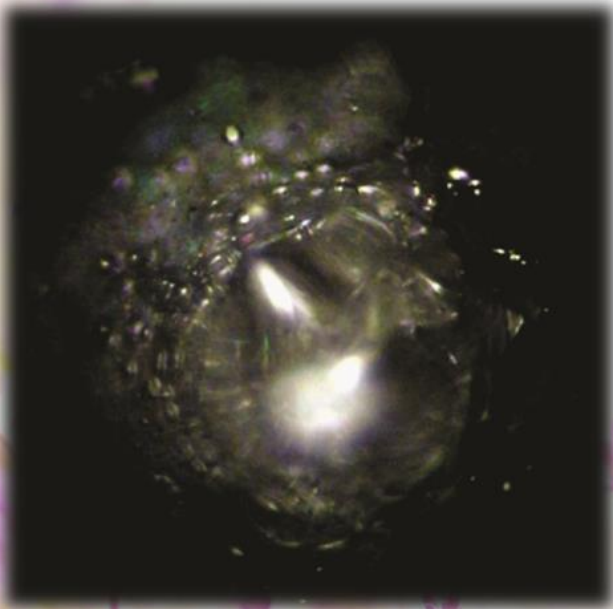

Eine geringe Menge AURICUM SENSITIVE wurde in einen Deziliter von diesem "leeren" Wasser gegeben. Anschließend wurden Tropfen davon eingefroren und unter dem Mikroskop fotografiert. Nebenstehender Kristall wurde als signifikant gesehen und deshalb vom Fotografen ausgewählt. (nebenstehendes Foto)

## Dark-field microscopy photos by ©Petra Dobler

Before: Thicker blood leads to poorer oxygen transport

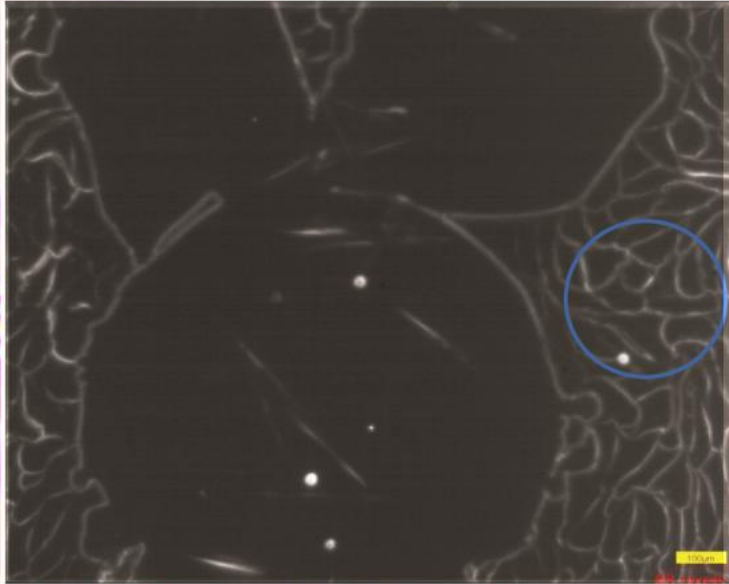

3 minutes after Auricum is sprayed on Atlas:

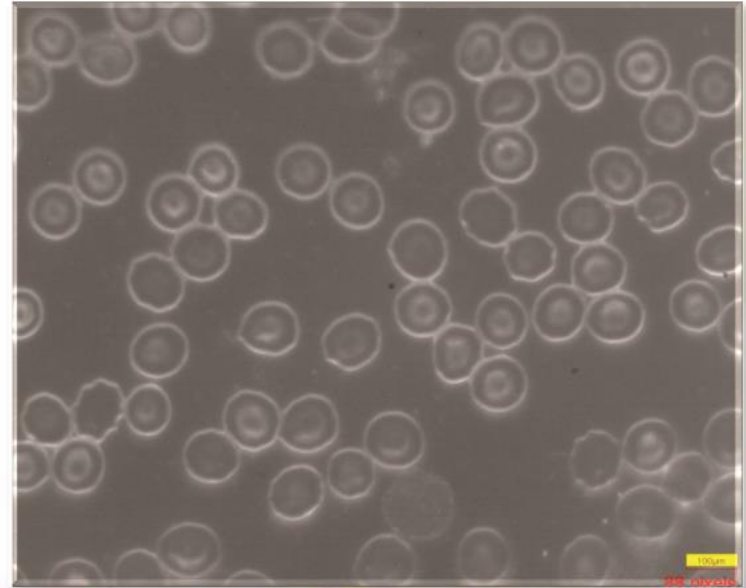

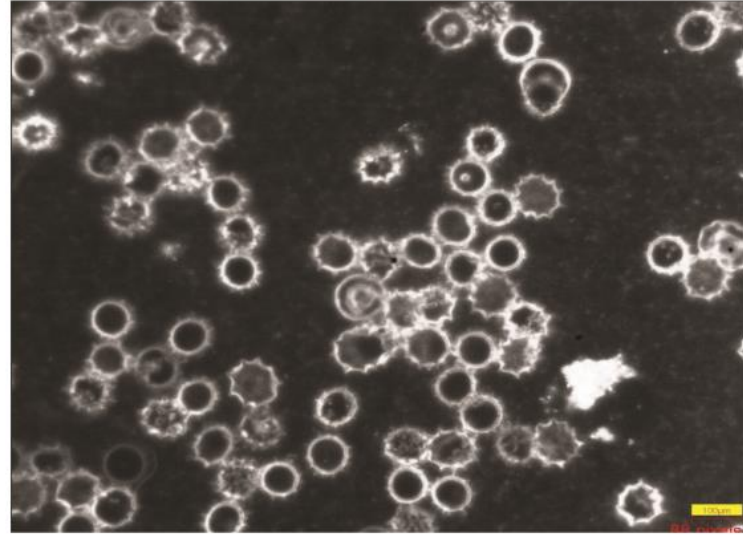

## Dark-field microscopy photos by ©Petra Dobler

Probe 1 - 1 day later already dead

Probe 2 – 1 day later alive as ever

2.6.15 after Auricum is sprayed blood is still alive  
Blood lived until 5.6.2015 - that are 7 days!!!  
Normal lifespan: 24-48 hours

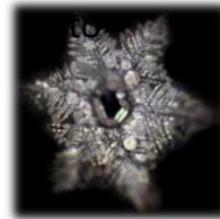

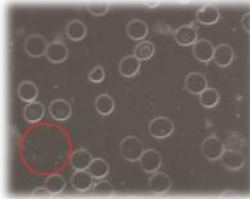

**In 8 years of dark field microscopy work, I have never found a method that so drastically improves blood quality in three minutes. Until now I could only expect such changes after weeks of diverting parasites (e.g. through diet). I have the impression that Lavylites affects those areas of the body where it is most needed at the moment. I look forward to more exciting pictures and the opportunity to support my patients in a faster, more effective, and longer-lasting way back to “order”.**

Which consciousness contains Lavylites?

**LAVYL**

The stored consciousness in form of Energy, Information, Vibration and Substance gets transferred to humans consciousness over and over. Due to this, the user's physis and energy-body can recover and develop.

What is Lavyl for me personally?

- A gift from heaven (not a question of religion)
- A perspective for mankind
- An inspiration
- A help with almost every therapy 😊
- A wonderful task
- A healthy way to earn money

## CREDO

Thank you for the opportunity that we have received.  
Thank you to our community, our companions, and our partners.

We honor Nature, we live and receive the whole.  
We bow to our ancestors!

Humans, animals, plants, minerals, particles, energy:  
civilizations from Europe to America, from Asia to Africa.  
Thousands of books, expeditions, joy and pain, return and absence.

Decades of research, collection, and conception.  
One life essence. Not copiable. Not repeatable.  
One mission.

Lavylites.

A long chain of discoveries behind us and in front of us.

We have worth.  
We have tradition.  
We have strength.
